# EXCHANGE OF EXPERIENCE, KNOWLEDGE, INFORMATION

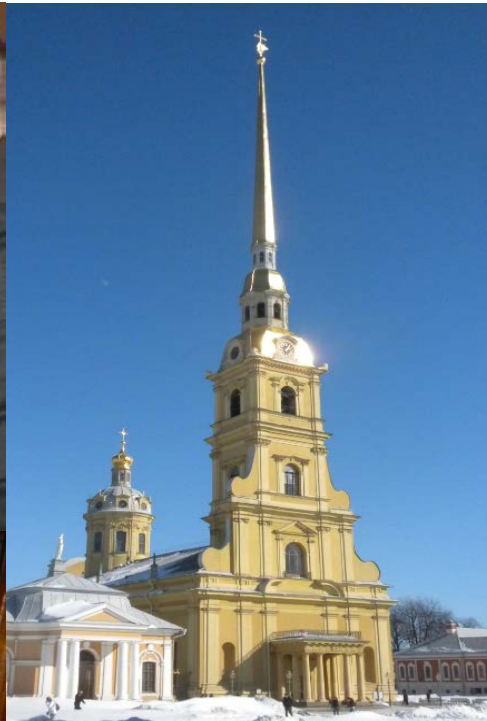

# FROM TWO OF THE PARTICIPANTS;

*“Networking for me is - both on a professional level and personal level very important. I use my network when I need knowledge on specific subjects in my work. Through all the years participating in conferences meetings ect. I have learned a lot from other colleagues from around the world -both culturally, police issues and politics. I have over the years met so many wonderful people. Some of them have become close friends whom I visit privately and they visit me.*

*All over I would say that networking and meeting people/colleagues from around the world give you inspiration and knowledge.”*

*“If you are referring to these conferences by NBNP I would say first of all it is making the Nordic-Baltic area of policing smaller, making it easier to investigate cross-border cases between the countries. Personally I have made some good mates I intend to keep in touch with in the future.”*

# ...NBNP MAKES FRIENDS FOR LIFE

A silhouette of a city skyline at sunset. The sun is a large, bright orange and yellow orb in the center of the sky, partially obscured by thin, horizontal clouds. The city buildings are dark silhouettes against the bright sky. The most prominent features are two large domes on the left side of the skyline. The overall mood is warm and serene.
