Multi-modality

Aesthetics –
shaping experience

A widened concept of Aesthetics

In Art Education

- **Perception of knowledge**
- **A quality in learning, including all pupils experiences**
- The doctrine of beauty
- Philosophical examination of issues, terms and conditions when talking about art and art experiences, including visual arts, literature, music, cinema, theater as well as aesthetic objects of different kinds,
- Empirical studies of factors affecting aesthetic preferences and wonderment;
- Perceptions and attitudes ...

How to develop knowledge?

Do you recognize a process when you see it?

Developing competence

Dare to try!

Exemple of a process

About content in teacher education:

The aesthetic expressions has a value of its own and are also paths to knowledge in different subjects.

The government consider therefore that knowledge and competences within the aesthetic area is important for students becoming teachers.

UNESCO Art Education

Lissabon 2006

A road map to Art Education

SEOUL 2010

Seoul Agenda

Culture and aesthetics in learning
