MOD VOLD  
ASKOVFONDEN**

**Nordic-Baltic roundtable  
september 29.-30.  
Tampere**

**Jesper Rønn-Simonsen  
Direktør  
Dialog mod Vold**

# 1: The situation in Denmark

Services provided by

- Dialog mod Vold – 4 cities, full program for families, digital
- Lev Uden Vold – help line, phone or digital, 5 sessions
- Local initiatives, municipalities, prisons

Public funding, foundations, social investments

## 2: The most pressing issues

What is not an issue:

- Treatment quality (82% / 74 %)

What is an issue:

- Capacity – 300 : 1.500
- Population density vs. distance vs. treatment need (0,015 %)
- (Digital? Travelling psychologists?)
- The enabler/constrainer dilemma

# 3: Can the same entity be responsible for both perpetrators and victims?

Yes, absolutely! Clear advantages:

- Possibly treating the family together
- Reducing the split narrative problem
- Economies of scale
- Knowledge and data
- Reducing selection bias

But:

- Safety considerations
- False safe spaces
- Ideological differences
