SERVICES FOR GENDER BASED VIOLENCE VICTIMS IN LATVIA

**KAS TIKA DARĪTS UN KĀDA
BŪTU LABĀ PRAKSE?**

Anonymous shelter

Social worker

Other specialists

Social rehabilitation of victims

Legal advisor

Social rehabilitator

Psychologist

PRESSING ISSUES

- 34,7% on average for victim rehabilitation from state programme
- No financing for victims that have extremely high life dangerous situations.(when reaction should be fast and there should be place to hide. NGOs are not delegated to lead cross institutional teams and practically no teams like this to implement safety plans.

(except - for victims of trafficking. More successful support for victims of sexual exploitation.)

- State support is not provided anonymously

MARTA has 25% of clients asking for support anonymously

- No anonymous shelters
- Mediation is used in cases of gender based violence
- No specific service for observing violent fathers' meeting their children. Usually, victims are involved in the process and been manipulated by aggressors
- There is no forensic examination in many municipalities\
(no gender sensitive)

The same
service provider
for victims/
perpetrators???

IMPORTANT: different specialists working with victims/ perpetrators and that locations of services are separate so that victims would not meet the perpetrators

Benefits:

If you work with the perpetrator you can see some improvements while talking to specialists working with victims

Risks:

Loosing victim's perspective/ belittle or minimize perception of sufferings of the victim
