

Norway –state of art

Structure and funding

- Alternative to violence, since 1987 (Non-profit NGO)
 - 13 offices
 - Perpetrators, victims, teenagers with aggression problems
 - Government- and local government funding
 - Active in exchange
-

The most pressing issue in the area of services in your country?

- How to influence the prevalence of violence?
 - Prevention – priority – but not enough
 - Inter-sectorial collaboration, responsibilities
- Child care sector more in focus
- Equal services in the whole country
- Next generation- perspective
- Keeping up the development - digital, social media...

Can the same entity be responsible for both victim services and the perpetrator services? Benefits and challenges?

Partially

- In case of ATV, this works
- Trust and professionalism are the major issue
- However, there should also be specialized services entirely dedicated to victims
